RELEVANT EXPERIENCE

UI/UX Design Intern - GoodWallet
San Francisco CA | Feb. 2021 - Current

Design Consultant - Mission Pets
San Francisco CA | Nov. 2019 - Current

- Oversee all aspects of technical design for every collection and develop a comment document for all garment components for 100+ product types in deadline-driven environment.
- Create sketches, specifications and grading to vendors and approved samples for production after a thorough evaluation of fit, measurement, graphic, pattern, and build design library system.

Technical Design Freelancer - Old Navy HQ
San Francisco CA | July. - Sep. 2019

- Solved design issues with cross-functional teams and created design tech packs for styles in different categories.

Technical Designer/Product Developer - The North Face HQ
Alameda CA | 2018 - 2019

- Researched market trends, collected inspiration, and created design & visual presentations.
- Prepared & led fit sessions with teams to present current fit and recommended alternative ways of it.
- Partnered with vendors to solve product issues while maintaining design & style consistency.

Technical Designer - JCPenney HQ
Plano TX | 2017 - 2018

- Led fit sessions with designers to discuss and solved fit and construction issues to improve samples.
- Collaborated with cross-functional teams and vendors to land on material, trims, graphics and design intent in the production timeline.
